ABOUT RAM® MOUNTS

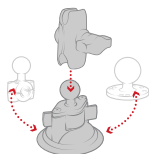

RAM® Mounts manufactures rugged and versatile mounting systems for cameras, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

THE RAM® DIFFERENCE

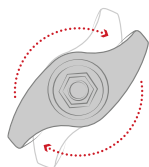

PREMIUM DESIGN

The rubber ball and socket design of our mounting systems offers a secure hold, with near-infinite adjustability and vibration damping for the most demanding environments. With thousands of components trusted by users around the world, we've been able to design and develop mounting solutions that consumers and companies previously only dreamed were possible.

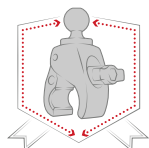

CUSTOMIZABLE

Take your phone mount from your truck to your boat, or mix and match components to create your ideal mount. Because of the modularity of the RAM® system, you can customize your solution to fit your specific needs in almost any application.

QUALITY MATERIALS

A premium design deserves the highest quality materials available, from rubber and stainless steel to high-strength composites and marine-grade aluminum. Our facilities— including powder coating, die casting, rubber injection molding, and shock and vibration testing—help us deliver on this promise to bring you inventive mounting solutions.

LIFETIME WARRANTY

It's simple. Our reputation as the leader of premier mounting systems means if we build it, then we guarantee it. We're confident in the quality of our products, and with our warranty, you can be too.

NATIONAL PRODUCTS INC. (NPI)

Introduced in 1995, National Products Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

PARTNER WITH RAM® MOUNTS

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.

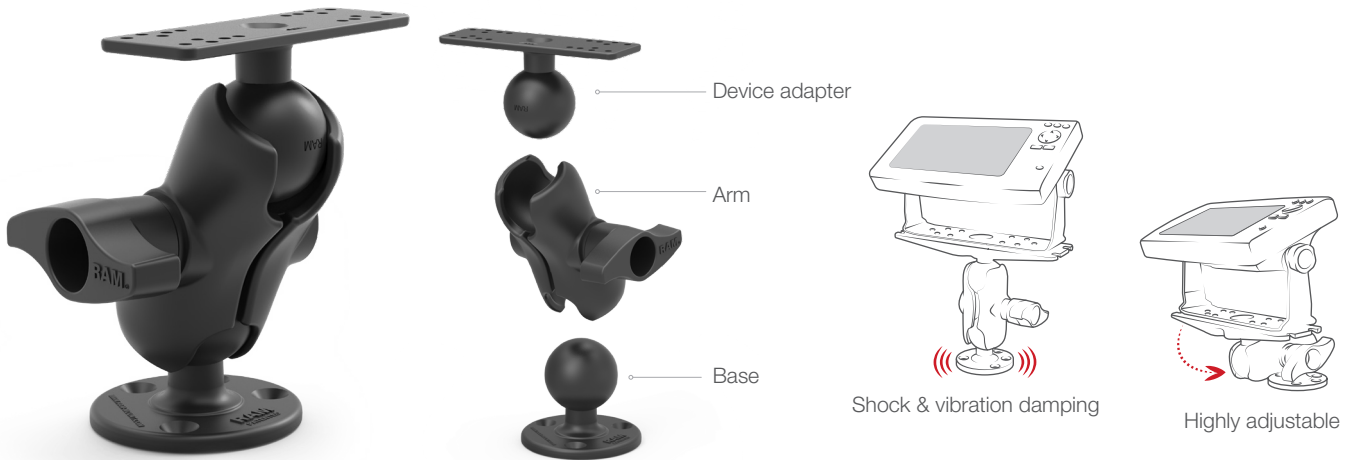

HOW IT WORKS

BUILD YOUR KIT WITH THE
RAM® MOUNT BUILDER

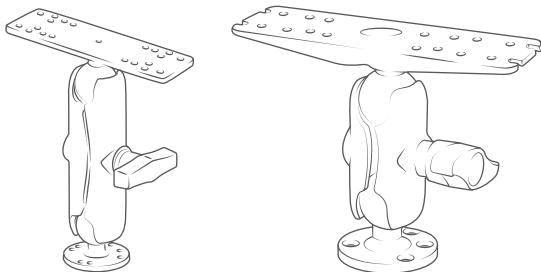

BOATING MOUNTS DOUBLE BALL MOUNTS

Out on the water, we know that the ideal experience requires having the versatility to confidently place and adjust your fishfinders and other devices to any position while maintaining the structure of the mount out on harsh waters. Our ball and socket technology allows for near-infinite adjustability while providing the holding power to support heavy devices in any environment. Simply attach the ball adapter to your device and connect with the correct size socket arm to place on to the mounting base in the location of your choosing.

GENERAL RULE

Different sizes of ball and socket mounts are intended for different weight capacities and device sizes. For boats in heavy duty environments, RAM® recommends C size mounts for 4"–7" fishfinders and plotters, and D size mounts for 8"–16" fishfinders and plotters. Swing arm mounts with no ball components can support any size fishfinder or plotter.

C Size 1.5" Ball Mounts
Holds up to 4 lbs
4"–7" Fishfinders & Plotters

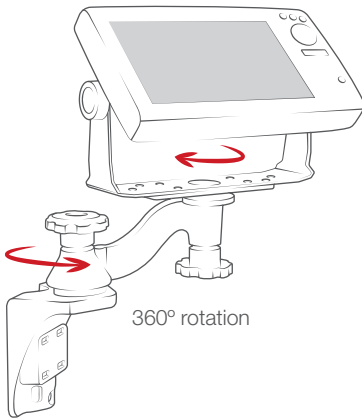

D Size 2.25" Ball Mounts
Holds up to 6 lbs
8"–16" Fishfinders & Plotters

AVAILABLE IN

SWING ARM MOUNTS

For those who desire the simple stability to adjust of your device on the X-axis, our swing arm mounts support 360° horizontal rotations—available with single and double pivot points for dual-articulation. Simply attach your device to the adapter plate, similar to double mount setups, and secure the swing arm mount to the vessel for an easy 2-step installation. Our swing arm mounts can also be mounted on a horizontal or vertical flat surface for a wide range of compatible mounting locations.

AVAILABLE IN

Single & double swing arm extensions

Horizontal & vertical mounting

Locking accessories

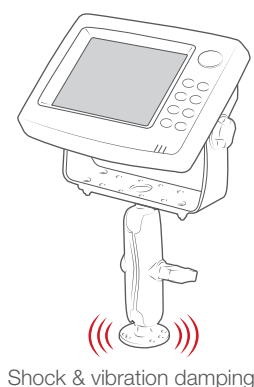

HOW IT WORKS

BUILD YOUR KIT WITH THE
RAM® MOUNT BUILDER

KAYAKING MOUNTS DOUBLE BALL MOUNTS

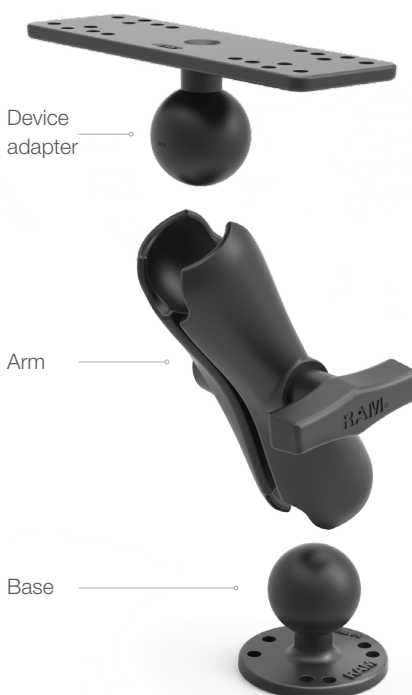

Space can become limited in a kayak, especially when you factor in the space you can take up with many devices, fish containers, fishing rods, paddles, snacks and more—that's why RAM® Mounts designs the most versatile and rugged mounts on the market so you can feel confident your device is secure. Our ball and socket technology allows for near-infinite adjustability while providing the holding power to support heavy devices in the harshest environments—simply attach the ball adapter to your device and connect with the correct size socket arm to place on to the mounting base in the location of your choosing.

Shock & vibration damping

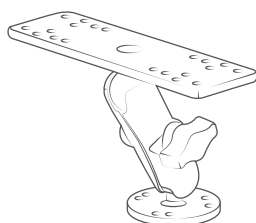

Highly adjustable

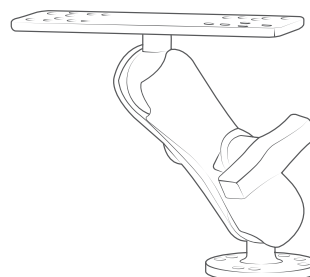

GENERAL RULE

Different sizes of ball and socket mounts are intended for different weight capacities and device sizes. For kayaks, RAM® recommends B size mounts for up to 5" fishfinders and plotters and C size mounts for up to 9" fishfinders and plotters. Drill-down, track mounting, and interchangeable components are available in both B size and C size.

B Size 1" Ball Mounts
Holds up to 2 lbs
4" - 5" Fishfinders & Plotters

C Size 1.5" Ball Mounts
Holds up to 4 lbs
Up to 9" Fishfinders & Plotters

WIRELESS CHARGING HOLDERS

The RAM® Tough-Charge™ with X-Grip® Technology and RAM® Quick-Grip™ Wireless are the world's first patented, universal, waterproof wireless charging cradles for smartphones. Designed with spring-loaded technology, utilize the best parts of both the RAM® X-Grip® and Quick-Grip™ phone holders while pairing any smartphone with wireless charging capabilities. For added security and peace of mind, a safety tether is included that's recommended for outdoor applications. Available in a variety of mounting kits, ensure wireless charging capabilities across a wide range of vessels.

HOW IT WORKS

DOUBLE BALL MOUNTS

BUILD YOUR KIT WITH THE
RAM® MOUNT BUILDER

Choose from a selection of holders, socket arms and ball bases to build a custom mount for your specific needs. Additional bases may be chosen so that your mount can support multiple devices, or can be transferred to alternate mounting locations.

1

CHOOSE A HOLDER

RAM® offers a wide selection of holders for your specific device.

2

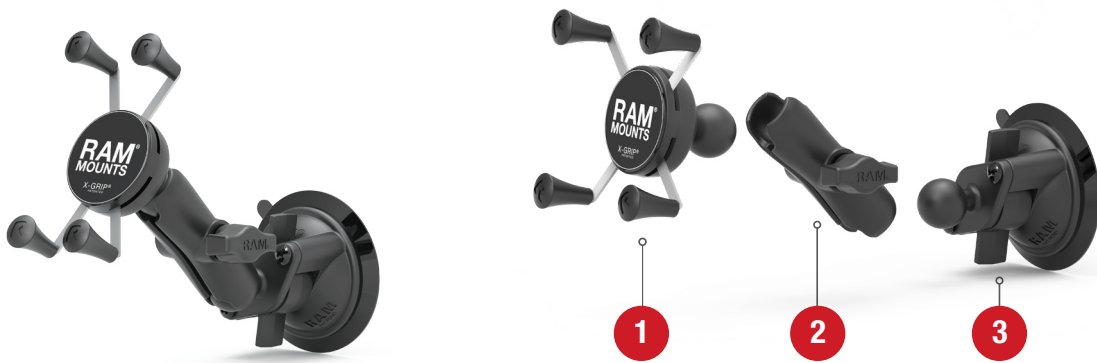

CHOOSE AN ARM

Select an arm based on your desired length and placement.

3

CHOOSE A BASE

Select from a variety of bases to help secure your device where you need it.

TABLET MOUNTS

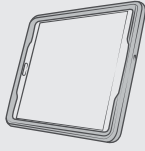

BUILD YOUR KIT WITH THE
RAM® MOUNT BUILDER

Using a tablet with fishing apps and navigation is a viable option made easier by RAM® Mounts utilizing the Tab-Tite™, EZ-Roll'r™, and RAM® X-Grip® holders. Pair with a wide variety of mounting bases and socket arms designed for boating in both fresh water and salt water. Each tablet holder is designed to fit your specific need, combined with the modularity of RAM® Mounts components makes these mounts ideal for any tablet you may own used for fishing or recreation. RAM® Mounts knows you need to trust that your tablet out on the water has proper security, so that's why we've ensured that each tablet holder is more than capable of handling the harshest environments.

CAMERA ADAPTERS

BUILD YOUR KIT WITH THE
RAM® MOUNT BUILDER

Capture the best photos and video possible with the help of RAM® Mounts camera ball adapters, allowing for the perfect angle and a secure hold. Constructed with the highest quality materials, the RAM® ball design dampens shock and vibration to help the camera's image stabilization for a smooth video. Discover the GoPro® base adapter, specifically designed for GoPro® action cameras and easily replaces the factory mount. The RAM® universal action camera adapter securely attaches to any compatible action camera, and the RAM® Tough-Ball™ with 1/4"-20 threaded stud is ideal for mounting any cameras including DSLR's and 360 cameras.

RAM® MOUNT BUILDER

FISHFINDER MOUNT ACCESSORIES

Mounting to your boat can be tricky. You don't want to put holes in the wrong areas. Mount your base in the best, most secure locations using our Mari-Nut™ and Mari-Rivet™ mounting hardware paired with the RAM® cable manager; perfect for your fishfinder. The RAM® cable manager acts as a mounting platform for your ball base as well as a neat and organized way of feeding the fishfinder cables through to avoid snags and tangles. Between the large and small sizes, these cable managers are designed to fit bundled cords from any fishfinder, perfectly.

DID YOU **KNOW**

If you want to transfer your Fishfinder to multiple mounting locations, you can have multiple drill-down ball bases installed at various locations. You can even transfer from Kayak to Boat.

HI-TORQ™ WRENCH & LOCKING KNOBS

Security is a big focus area for RAM® Mounts—that's why locking accessories are available for all socket arms and swing arm mounts. Designed with patented locking patterns, these locking knobs are swappable with the arm's knob to convert your mount for theft deterrence. Use the Hi-Torq™ Wrench to ensure your heavy duty fishfinder is tightened into place. This handy tool makes handling and adjusting the position of all the extra weight much easier.

PADDLEBOARD & INFLATABLE CRAFT MOUNTS

Paddleboards need mounts too! RAM® utilizes phone holders and action camera mounts with RAM® components to create ideal paddleboard mounts—designed to fit securely on a wet, flat surface, these kits provide mounting options for any paddleboard. Between flat surface mounting options that do not require drilling into the board, to leash plug adapters, these mounts are all you need to mount your desired device.

RAM® TOUGH-TRACK™

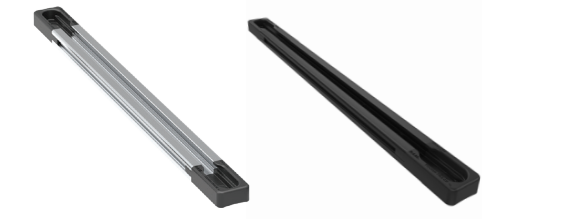

From a wide variety of lengths and track styles to choose from, RAM® Tough-Tracks™ are fully customizable solutions with thousands of configurations. Able to support multiple devices, these tracks are designed to handle specific weights, a wide variety of devices, and mounting locations. Take advantage of the modular aluminum tracks that include connector pieces that extend the length of the track system and create corners for multi-directional mounting. Not interested in drilling into your vessel? RAM® offers hand tracks and rail mounted tracks for easy install and removal of the entire system.
